-Negative in past and present.

-Conditional tense (I would like)

-Sentences using because plus adjectives.

### Writing skills

-Write a descriptive text about a trip you made and mention what you liked and did not like and what you would change on your next trip.

-Write a dialogue between the traveller and the employee or between the host and the traveller.

-Write a letter to a friend about a trip you dream of including (with whom - where - how travel - how many days - what you will do ...)

### Maths

In maths next term, we will be continuing algebra moving on to learning to express formulae. Then we will learn about converting between metric measures and imperial measures; perimeter; area and volume.

### Science

In science, we will be developing our knowledge of inheritance and evolution. This science topic will explore how characteristics are passed down from parents to offspring within plants and animals. It will also explore how animals and plants adapt to their surroundings to be the most successful in their species.

### English

During English this half term, Year six will be exploring non-chronological reports which will form a part of our formula 1 project.

We will develop our use of language and grammatical features, such as relative clauses, subordinating clauses, parentheses and semicolons.

### F1 project

Our exciting F1 project will provide children with the chance to develop their leadership and teamwork skills. They will work together to design and create a F1 car along with all of the branding linked with F1 teams.

## PE

During Physical Education next term, Year 6 will participate in Athletics, Netball, Badminton and Handball. The children will learn a variety of different skills and techniques that will improve their fitness and performance.

The pupils will also learn about different components of fitness that are crucial when competing in a variety of different events. Students will also have the opportunity to assess their own and their peer's performance.

## Art

Year 6 will be looking at patterns this term, and will be involved in various projects linked to the theme. They will explore lines and shapes, and be encouraged to use a wide range of mix media such as pencil colours, oil pastels, water colours and pens. Students will also be introduced to the work of famous artists who are linked to the theme, and use them as inspiration when creating their own work.

## Moral, Social and Cultural Studies

In MSC Studies, the children will be learning about classical civilisations and how these led to the development of different types of government. We will also be exploring how different empires expanded due to their successes and exploring failures which sometimes led to their fall.

## Computer Science

In our next computing unit students will be delving in to the world of C.A.D, Computer Aided Design. Students will become familiar with apps for creating and manipulating 3d models. We will explore the latest 3D designing and printing technologies and discuss real world applications for these new industries.

## Performing Arts

In Music this term we will begin to learn about 'The Elements of Music'.

We will learn about these and incorporate them into 'Jingle Writing'. The inspiration for these jingles will come from their teams that they will develop in the Formula 1 project.

In Drama this term we will focus on preparing for team presentation. We will focus on developing presentation skills, communication and collaboration. We will work with the students to present a pitch linked to their Formula 1 Teams.

## French and Spanish

In term 2b, French students will cover several mini topics. These include describing where they live, ordering different types of food, and also how to talk about different nationalities.

In term 2b, Spanish students will start to learn about food. Students will learn how to order breakfast and typical Spanish snacks. They will also learn how to say hello, goodbye, please and thank you, and even ask for the bill.
