

# Marvelous Me

## Year 1 - Term 1A

### Mathematics

In Maths, we will be focusing on place value up to 20, as well as addition and subtraction. We'll use number lines, Numicon, and Dienes to support our understanding and help us solve problems accurately.

### Forest School

Children will be Nature Detectives and will spark curiosity and creativity as children explore the natural world through activities like nature art, clay sculpting, and simple tool use. They'll learn about seasonal changes, local wildlife, and sea turtle migration in the UAE, all while building confidence, teamwork, and wellbeing.

### English

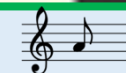

We will be using a wide range of picture books and short film clips to write sentences containing capital letters and full stops as well as exploring adjectives. Our sentence writing will be based on character and setting description as well as writing a recount about family life.

### Science

This half term, children will learn about their bodies by exploring the five senses and identifying body parts like the knee and elbow. They will also take part in experiments to test and understand how their senses work.

### Music

In Music children will take part in fun, engaging activities built about teamwork and curiosity, through exploration of songs and the elements of music.

## Topic

This unit helps children explore their identity and background by learning about their personal history, significant people, and local and global origins. It builds confidence and encourages appreciation of their own and their classmates' unique stories.

## Curious Creators

Children will explore their identity and express themselves through creative activities in Art and Design. They create self-portraits, model their features and emotions, and design items that reflect their personalities, celebrating what makes each of them unique.

## Arabic

- |   |  |
|---|--|
